Blog Export File

=====

The blog export file (.xml format) is available publicly for those users who would like to download it to recreate the blog but with a different name and under their ownership.

This file is named iami.WordPress.YYYY-MM-DD.xml where YYYY, MM and DD give the date the export file was created e.g. iami.WordPress.2018-09-13.xml. These blog export files are placed in the Google Public folder directory:

[https://drive.google.com/open?id=0B3Pcd4RD\\_n8LVE9SUktsa2NVdVk](https://drive.google.com/open?id=0B3Pcd4RD_n8LVE9SUktsa2NVdVk)

and archive.org Public archive:

<https://archive.org/details/iami1-wordpress-com-Export-File>
